Colombo — South Asia’s Hong Kong

157 TEU/ `000 people
Population - 1.41 billion

10 TEU/ `000 people
Population - 1.34 billion
Colombo International Container Terminals

- Only deepwater terminal in the region
- 20,000+ TEUs vessels

Strategic Location
Common user facility
Strong service network and higher frequency
State of the art technology and equipment
Practices of ease of doing business

- Mobile App/ E Boat Notes

Service delivery – Higher productivity/ Competitive tariff rates

- SLA/ ECI & Volume Rebates

Promote green supply chains

- ERTGs – Producing zero emission

Proactively meeting the regional challenges

- Enhancing deepwater capacity
Port of Colombo — Volume Analysis

- Port of Colombo
- Volume Analysis

Volume y-o-y

Economic Value of CICT

- Improved connectivity between local & global transportation

- Environmental Responsibility
- Social inclusion
- Encourage innovative export industry

- Direct & Indirect employment opportunities
- Empower youth

- Develop Port of Colombo as a main focal point on the east west shipping route for ULCVs.
- Collaborative development

- Establish a preferential working environment for the logistics partners (Freight forwarders Importers, Exporters & Transport service providers)

- Higher productivity & Unmatched service delivery
Sri Lanka tops the Connectivity
Liner Shipping Bilateral Connectivity with Sri Lanka

Top 5 Import Partners (By Value)

- India
- China
- Japan
- UAE
- Singapore

Avg. Connectivity Score

- 2010-2013
- 2014-2016

Top 5 Export Partners (By Value)

- USA
- UK
- India
- Germany
- Italy

Avg. Connectivity Score

- 2010-2013
- 2014-2016

Future — Routing Cargo via CICT

Future routing cargo via CICT involves connecting major ports and regions around the globe. Key locations include Turkey, China, India, Morocco, Nigeria, Togo, Ivory Coast, Brazil, and others. This network aims to facilitate efficient and strategic cargo transportation across continents, enhancing global trade and logistical efficiencies.
Thank You!!
